QNM 1.4.1

INSTITUTION OBTAINS FEEDBACK ON THE ACADEMIC PERFORMANCE AND AMBIENCE OF THE INSTITUTION FROM VARIOUS STAKEHOLDERS, SUCH AS STUDENTS, TEACHERS, EMPLOYERS, ALUMNI ETC. AND ACTION TAKEN REPORT ON THE FEEDBACK IS MADE AVAILABLE ON INSTITUTIONAL WEBSITE

Stakeholder's Feedback Report

Feedback process

Curriculum Design and Development is a pivotal process that entails the creation of tailored educational content in accordance with identified needs. This procedure involves collaboration with expert groups and integration of feedback from stakeholders, ultimately aiming to enhance the quality of education. An institution that recognizes the value of this process is the CCET which not only ensures the development of need-based inputs but also establishes a mechanism for gathering feedback from various stakeholders.

The involvement of stakeholders, including students, teachers, and other relevant parties, is indispensable in refining curriculum-related institutional processes. CCET takes a proactive role in soliciting and incorporating feedback from these groups, recognizing that their perspectives provide valuable insights into the effectiveness of teaching, learning, assessment methods, and overall capacity-building endeavors. By engaging stakeholders, CCET fosters a collaborative environment that promotes continuous improvement.

Stakeholder feedback serves as a valuable resource for instituting enhancements across the educational spectrum. Insights garnered through this feedback mechanism facilitate informed decision-making, leading to refinements in pedagogical approaches, learning materials, evaluation techniques, and overall institutional strategies. The overarching objective is to align educational provisions with the evolving needs of learners and the

broader educational landscape.

Curriculum, as a core component of the teaching and learning paradigm, demands consistent and periodic evaluation. CCET's commitment to this principle is evident through its emphasis on ongoing assessment and adjustment of curriculum components. This iterative evaluation process ensures that the curriculum remains relevant, effective, and responsive to the dynamics of education, technological advancements, and societal shifts.

In conclusion, Curriculum Design and Development, fortified by stakeholder engagement and feedback, form the bedrock of educational advancement. CCET's dedication to incorporating diverse perspectives and its unwavering commitment to curriculum evaluation exemplify a holistic approach to fostering educational excellence. Through these endeavors, CCET not only contributes to the continuous improvement of teaching and learning but also cultivates an educational ecosystem that nurtures innovation, adaptability, and growth.

Criterion 1

Feedback System QnM 1.4.1

Criterion 1

Feedback System QnM 1.4.1

The process of feedback collection and curriculum development is a crucial aspect of maintaining the quality and relevance of educational programs. At CCET, this process is well-structured and involves active participation from various stakeholders to ensure a comprehensive evaluation and enhancement of the curriculum.

The feedback on curricula and syllabi is systematically collected at the conclusion of each term, typically occurring in the months of April and November within the academic year. This timeline allows for regular intervals of assessment and adjustment, ensuring that the curriculum remains aligned with the evolving needs of students and the demands of the industry and job placement landscape. The curriculum investigation encompasses a holistic approach, considering both the planning of syllabus and the overall program experience.

The initial stages of curriculum development involve a meticulous evaluation of the existing curriculum. This evaluation is conducted in the context of student requirements, industry expectations, and potential job placements. By analyzing the strengths and weaknesses of the current curriculum, CCET ensures that any new program or modification is well-informed and relevant.

The curriculum development and review process is a collaborative effort, with active contributions from students, teachers, and academic experts from other institutions. Feedback is solicited from students for each course they undertake. This feedback is collected through a prescribed questionnaire designed by the institute. The process includes both online methods as well as traditional hard copy submissions before the semester's end.

Established In 1998

CHRISTIAN COLLEGE OF ENGINEERING & TECHNOLOGY

Managed By St. Thomas Mission, Bhilai

Approved by AICTE and Affiliated to CSVTU, Bhilai

If You Aim High, We Provide The Means

This multi-faceted approach aims to capture a diverse range of student perspectives and experiences.

Similarly, faculty members are also involved in providing feedback on the courses they teach. This comprehensive approach ensures that both student and teacher viewpoints are considered during the curriculum review process. The collected feedback is then compiled and presented to the curriculum review committee, a body constituted by the institute.

The curriculum review committee plays a pivotal role in analyzing the gathered feedback. This committee convenes regularly, typically at the end of each semester, to deliberate on the suggestions provided by students, faculty, and academic experts. The aim is to foster a rich dialogue that leads to valuable insights and recommendations for curriculum improvement. During these discussions, the committee ensures that any changes made maintain coherence with the overall curriculum structure and objectives.

Once the feedback has been thoroughly analyzed and discussed, the curriculum review committee generates recommendations for changes. These recommendations are then presented during meetings of the Institutional Quality Assurance Cell (IQAC), a body responsible for overseeing quality enhancement initiatives. The IQAC members review the proposed changes and provide further insights and suggestions, ensuring a well-rounded assessment.

Established In 1998

CHRISTIAN COLLEGE OF ENGINEERING & TECHNOLOGY

Managed By St. Thomas Mission, Bhilai

Approved by AICTE and Affiliated to CSVTU, Bhilai

If You Aim High, We Provide The Means

Finally, incorporating the recommendations of the IQAC, the necessary changes are integrated into the curriculum. This meticulous process of feedback collection, analysis, and implementation guarantees that CCET's educational offerings remain dynamic, relevant, and of the highest quality. By engaging students, faculty, and academic experts, CCET demonstrates its commitment to continuous improvement and the provision of education that meets contemporary standards and expectations.

Stakeholder Feedback Report on Curriculum – 2018-19

1. Student's Feedback

The institution places a strong emphasis on utilizing students' feedback as a foundational element for refining and enhancing the existing educational framework. The students' feedback questionnaire, which is administered twice a year at the end of each term, serves as a comprehensive tool to gather both quantitative and qualitative insights. This questionnaire delves into various aspects of the students' academic experience, encompassing in-course content, pedagogy, learning materials, perspectives on theory/practical courses, and the institute's services.

This systematic approach to feedback collection ensures that students have a platform to voice their opinions on the scheme, teaching and learning methodologies, as well as co-curricular activities. The collected feedback is subjected to meticulous review and analysis, which forms the basis for implementing improvements. The insights gleaned from the feedback are shared with the relevant departments, and viable suggestions are subsequently presented to the IQAC for implementation.

Approved by AICTE and Affiliated to CSVTU, Bhilai

If You Aim High, We Provide The Means

A notable trend emerging from the survey is the overall satisfaction of most participants with the program scheme. Continuous refinement of the scheme based on feedback has yielded positive outcomes and reflects the institution's commitment to ongoing enhancement. The course content and the delivery of both theoretical and practical components have captured the interest of a majority of students. They express contentment with the assortment of courses, as well as the various activities such as guest lectures and workshops that enrich their learning experiences.

While a minority of students expresses concerns about resource availability, particularly in terms of reading materials and laboratory equipment/software, the majority find the library's reference materials sufficient to address theoretical and practical requirements. The institution's provision of e-books and e-resources further contributes to the students' learning accessibility and convenience.

A significant highlight is the positive feedback regarding software and equipment provided by the institute. These tools are instrumental in bridging the gap between theoretical concepts and practical applications. The institution's investment in a well-equipped research lab demonstrates its dedication to fostering research capabilities among students.

The institution's faculty members employ diverse teaching styles, leveraging multimedia tools like PPTs, site visits, animations, and real-world examples to

If You Aim High, We Provide The Means

facilitate engaging learning experiences. These methodologies are designed to challenge students and augment their understanding. The recruitment of experienced faculty members underscores the institution's commitment to delivering quality education and aligning curriculum with industry demands.

The institution's support system is underscored by the assignment of Class Teachers (Mentors) who play a pivotal role in addressing the needs of struggling students. This mentorship program extends beyond academics, encompassing psychological and social support. The positive feedback from students indicates that mentors effectively contribute to the overall well-being of students. Regular interactions between mentors and mentees, as well as involving parents, create a holistic support network that fosters student success and personal growth.

In conclusion, the institution's systematic approach to soliciting, analyzing, and acting upon students' feedback underscores its commitment to continuous improvement. By leveraging feedback and implementing changes through a collaborative process involving stakeholders and the IQAC, the institution ensures that its educational offerings remain relevant, effective, and responsive to the evolving needs of students and the academic landscape.

2. Alumni Feedback

The University's curriculum has garnered significant appreciation from its alumni, owing to

Criterion 1

Feedback System QnM 1.4.1

Established In 1998

CHRISTIAN COLLEGE OF ENGINEERING & TECHNOLOGY

Managed By St. Thomas Mission, Bhilai

Approved by AICTE and Affiliated to CSVTU, Bhilai

If You Aim High, We Provide The Means

its remarkable flexibility and multidisciplinary approach. The curriculum's adaptability to various fields is highly commendable, catering to students' individual needs and ensuring a comprehensive understanding of the subject matter. Notably, the curriculum places a strong emphasis on skill development, aligning with the evolving demands of the professional landscape.

One of the notable strengths of the curriculum is its alignment with competitive examinations such as GATE and NET. This strategic mapping equips students with the necessary knowledge and preparation to excel in both national and international-level exams. Preparatory classes play a crucial role in enabling students to grasp the essential prerequisites for these exams. The incorporation of frequent revision cycles, mock tests, and expert talks contributes significantly to enhancing students' confidence and enthusiasm, ultimately facilitating better performance.

The curriculum's commitment to professional enhancement activities is noteworthy. This dedication contributes to improved placement opportunities for students and a better understanding of market dynamics. However, there is room for further synergy between industry and academia. Integrating more industry-specific inputs into the curriculum can effectively bridge the gap and equip students with practical insights that align with real-world requirements.

To enhance students' practical skills and early exposure to real-world scenarios, compulsory mini projects should be integrated alongside theoretical subjects from the early stages of academia. This approach nurtures innovation, critical thinking, and application of concepts,

preparing students for the challenges of the professional realm.

Given the rapid pace of technological advancements, the curriculum's regular updates with the latest trends, technologies, and industry demands are essential. By introducing new courses, languages, software, and tools, the institution ensures that students remain well-equipped to address contemporary challenges and opportunities.

Incorporating students into the design of innovative projects and research endeavors fosters a culture of active participation and ownership in their educational journey. Such involvement paves the way for enhanced future prospects and a stronger connection between theoretical knowledge and practical application.

The positive feedback on available resources and infrastructure, including the library and supporting services, speaks to the institution's commitment to providing a conducive learning environment. This supportive ecosystem greatly contributes to students' overall academic experience and success.

Beyond academic prowess, the curriculum emphasizes building core competencies and holistic development. The diverse campus life and events cater to sports, culture, and co-curricular interests, offering students a well-rounded educational experience.

In addition to these strengths, the curriculum's inclusion of activities centered around

essential life skills, such as sensitivity training, emergency preparedness, disaster management, crisis management, and community learning, further enriches students' learning journey. These elements not only contribute to their personal growth but also nurture responsible citizenship, ensuring that graduates are well-prepared to contribute positively to society.

In conclusion, the institution's curriculum stands as a testament to its commitment to excellence and holistic development. Through its flexible, multidisciplinary approach, alignment with competitive exams, focus on skill development, and integration of industry insights, the curriculum equips students with the tools and knowledge needed to thrive in a dynamic world. By continuously updating and innovating the curriculum, the institution empowers its students to become well-rounded individuals, capable professionals, and responsible members of society.

3. Employers Feedback

Employers express satisfaction with the curriculum's diverse course options, noting their relevance in job preparation and skill enhancement. The prescribed syllabi effectively bridge the academia-industry gap, equipping students with job-ready skills and knowledge. This alignment ensures graduates are well-prepared to meet industry demands and excel in their professional endeavors.

4. Faculty Feedback

The institution's faculty members engage in a constructive practice of conducting bi-semester course coordination meetings. These meetings serve as dedicated platforms for qualitative enhancement across multiple dimensions of education. The faculty collaboratively addresses aspects such as content quality, pedagogical approaches, learning materials, student performance, research endeavors, and extension activities related to both theory and practical courses.

During these gatherings, faculty members openly share their feedback and suggestions concerning the teaching-learning process, research initiatives, and extension activities. This interactive exchange facilitates robust discussions and deliberations. Additionally, faculty members provide input on the Programme Scheme, Theory courses, and Practical Courses.

The valuable insights garnered during these meetings are channeled towards fostering continuous improvement. Appropriate recommendations stemming from faculty feedback are channeled to the academic council for consideration and eventual implementation. Furthermore, feedback collected during the teaching-learning process is communicated to the University, initiating necessary actions to address any identified areas for enhancement.

In essence, the institution's commitment to regular course coordination meetings exemplifies its dedication to refining educational offerings and ensuring a comprehensive, student-centered learning experience. Through open dialogue and collaborative efforts, the faculty actively contributes to the ongoing evolution of the curriculum and the overall

Employer Feedback Form

Dear Employer,

Greetings from CCET family

Many graduates of our Institute are already working in your organization. We are thankful to you for having provided them an employment with your prestigious Company/Organization.

In our endeavor to serve you better through our students, we shall very much appreciate and be grateful to you if you can spare some of your valuable time to fill up this feedback form. It will help us to improve the Institute further and give you better employees in future.

Tick the number that best describes your level of satisfaction at each question: 1 - Poor, 2 - Good, 3 - Moderate, 4 - Superior, 5 – Excellent

How satisfied are you with the student/s work performance in each of these areas:	1	2	3	4	5
1. General communication skills					
2. Capacity to develop practical solutions to work place problems					
3. Working ability as part of a team					
4. Design, Planning and organization skills					
5. Self-motivated and capable of taking responsibility					
6. Open to new ideas and learning new techniques					
7. Familiarity with new technology and equipments					
8. Ability to contribute to the goal of the organization					
9. Leadership quality in handling the situation					
10. Relationship with seniors/peers/subordinates					

On a scale of 1 to 10 how do you rate your overall satisfaction with CCET students and the curriculum?

**STUDENT'S FEEDBACK (ONLINE)
ACADEMIC SESSION 2018-2019
TOTAL RESPONSE = 81**

Criterion 1

Feedback System QnM 1.4.1

Question 1 : How do you rate the sequence of the courses that you have studied are in sequence to what you have studied in the previous semester

Criterion 1

Feedback System QnM 1.4.1

Established In 1998

Managed By St. Thomas Mission, Bhilai

Approved by AICTE and Affiliated to CSVTU, Bhilai

If You Aim High, We Provide The Means

Question 2 : How do you rate the syllabus of the courses that you have studied in the relation to the competencies expected out of the course?

Criterion 1

Feedback System QnM 1.4.1

Question 3 : How do you rate the relevance of the units in syllabus relevant to the course

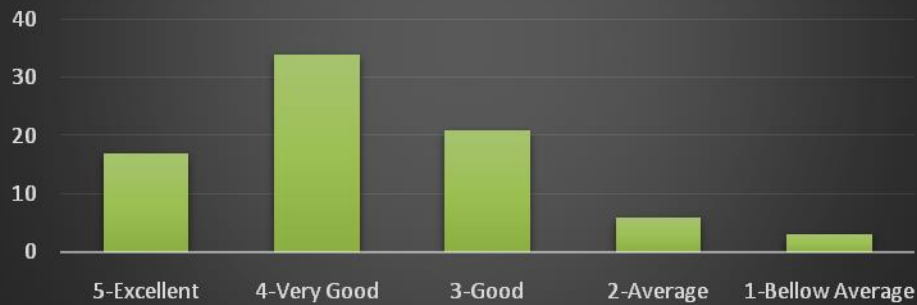

Question 4 : How do you rate the distribution of the contact hours among the course components?

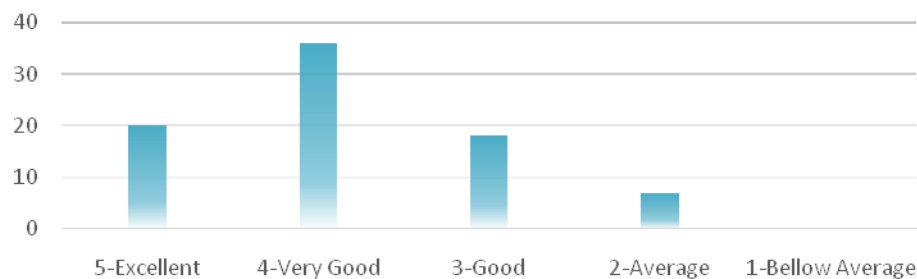

Criterion 1

Question 5 : How do you rate the offering of the electives in terms of their relevance to the specialisation streams?

QUESTION 6 :HOW DO YOU RATE THE ELECTIVES OFFERED IN RELATION TO THE TECHNOLOGICAL ADVANCEMENT?

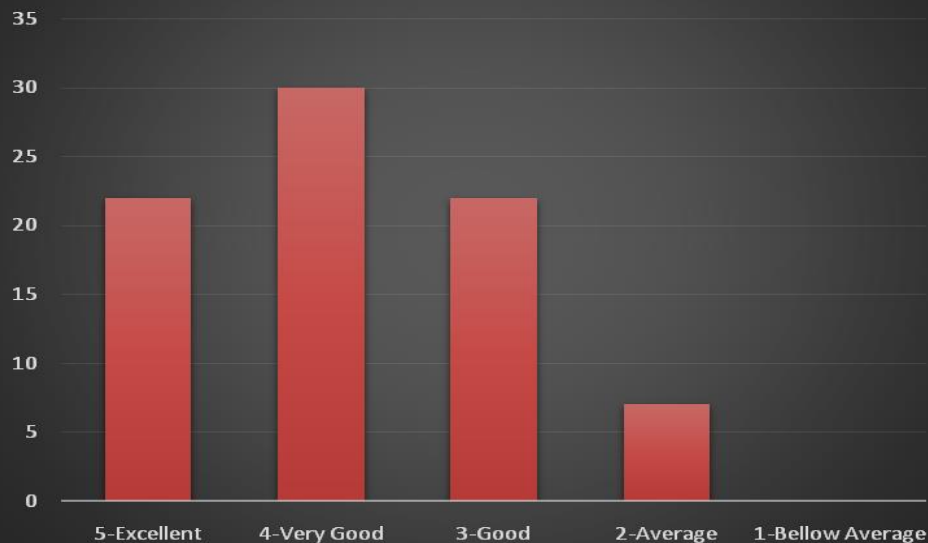

Question 7 :How do you rate the relevance of the textbooks and reference books by their international recognition to the course?

Question 8 :Rate the size of syllabus in terms of the load on the student

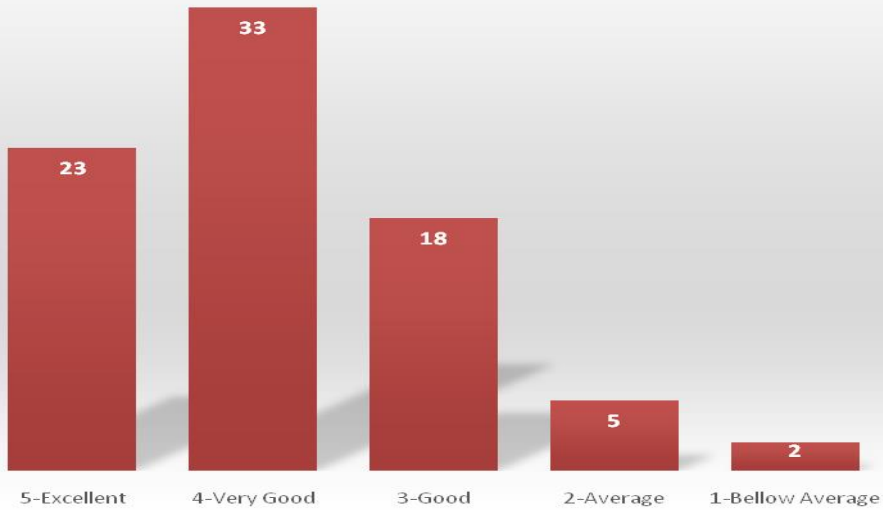

Established In 1998

Managed By St. Thomas Mission, Bhilai

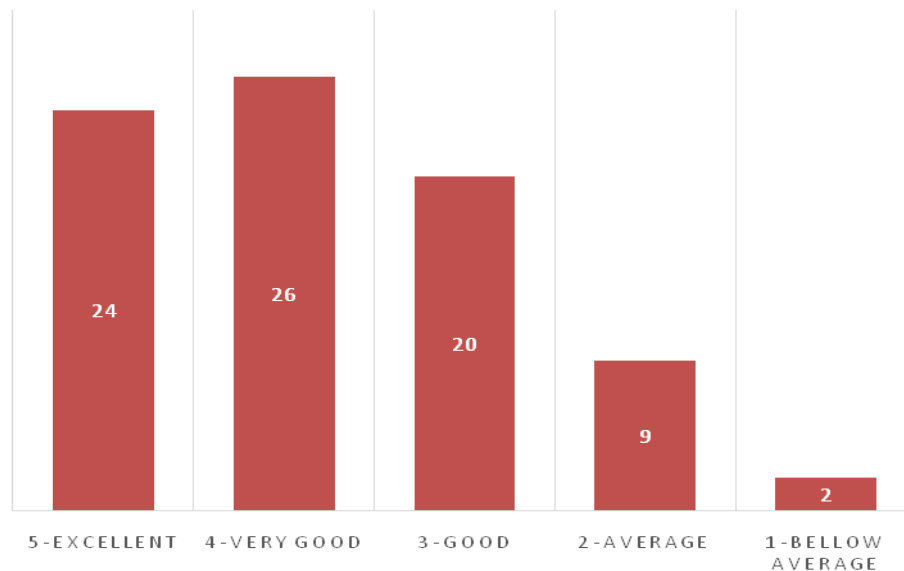

Approved by AICTE and Affiliated to CSVTU, Bhilai

If You Aim High, We Provide The Means

Question 9 : Rate the courses in terms of extra learning or self learning considering the design of the courses

QUESTION 10 : RATE THE COURSES IN TERMS OF SEQUENCE OF OFFERING CONSIDERING WHETHER THE PRECEEDING COURSES HAVE BEEN COVERED?

Criterion 1

Feedback System QnM 1.4.1

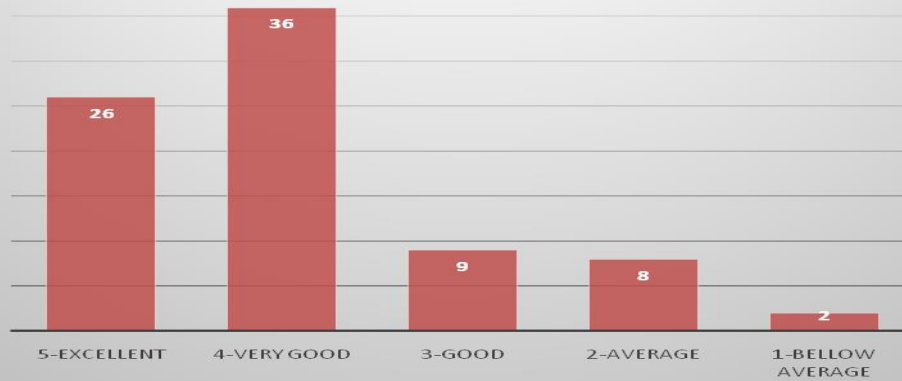

Established In 1998

Managed By St. Thomas Mission, Bhilai

Approved by AICTE and Affiliated to CSVTU, Bhilai

If You Aim High, We Provide The Means

Question 11 : How do you rate the percentage of the courses having LAB components

Question 12 : How do you rate the domain used for designing the experiments for the lab components?

Criterion 1

Feedback System QnM 1.4.1

Established In 1998

Managed By St. Thomas Mission, Bhilai

Approved by AICTE and Affiliated to CSVTU, Bhilai

If You Aim High, We Provide The Means

Question 13 : How do you rate the experiments in relation to the real life application

FACULTY FEEDBACK (ONLINE)

How do you rate the syllabus of the courses in relation to the competencies expected out of the course

- 1
- 2
- 3
- 4
- 5

How do you rate the structure framed for entire program

- 1
- 2
- 3
- 4
- 5

How do you rate the allocation of the credits and contact hours(L-T-P)to the courses?

How do you rate the offering of the electives in terms of their relevance to the specialization streams and technological advancement

How do you rate the relevance of the text books and reference books by their international recognition to the courses?

- 1
- 2
- 3
- 4
- 5

Rate the size of syllabus in terms of the load on the student

- 1
- 2
- 3
- 4
- 5

Rate the courses in terms of sequence of offering considering whether the preceding courses have been covered.

- 1
- 2
- 3
- 4
- 5

Rate the courses in terms of extra learning or self learning considering the design of the courses.

- 1
- 2
- 3
- 4
- 5

How do you rate the evaluation scheme designed for each of the course

- 1
- 2
- 3
- 4
- 5

How do you rate the composition of the courses in terms of the basic science, engineering science, Humanities, Discipline...

- 1
- 2
- 3
- 4
- 5

How do you rate the percentage of courses having LAB components and the domain used for designing the experiments for the LAB...

SUGGESTION FROM THE FACULTY MEMBERS (ONLINE)

Changes required in curriculum
Course content is so wide so extra classes needed
emphasis should be put conducting special sessions on more group activities so as to build confidence in interaction
Encourage students for studying well
mathematical problems needs to be done on regular basis
more focus on practical knowledge
More recent topics to be included in the course
motivate students to continue learning and improve their performance
personality development in all aspects is essential besides focusing on language skills
some modifications are required in syllabus
some modifications are required in unit-5
subject is wide to be completed in time it should be time
Subject needs practical classes to explain the topic
syllabus limits only to the grammatical aspect more. Language should be used as practical tool even in curriculum designs.

Feedback System QnM 1.4.1

Feedback Analysis and Action TAKEN Report

As per the collected feedback from all stakeholders during Even and Odd semester of 2018-2019, Following are the highlighted points

General analysis of feedback regarding curriculum upgradation received from different stake holders in an important measure for the quality enrichment of the institution. The institute has a multidimensional, well defined process of assessment including feedback by the stake holders like students, teacher, faculty, parents, alumni and employers to identify the curricular gaps and take measures to bridge it by supplementing the curriculum with add-on courses, guest lectures, workshops, seminars, industrial visits etc. The objective of this system is to provide a frame framework for acquiring, summarizing and documenting information.

Feedback Analysis and action Taken

Feedback	Action Taken
Students 1. Students feel that the soft skills training would improve their chances of placement in industry. 2. Improvement should be needed in personality development and Communication skills. 3. Internship must be encouraged.	1. All the Departments have organized Workshops and Seminars on soft skills for students by inviting experts from industries and reputed institutions. 2. The college conducted various value added courses/ personality development and communication skill improvement activities in the year 2018-19. All HODs have been asked to conduct more such activities in the coming academic year. 3. Students have been sent for internship during summer vacation.
Teacher 1. Industry oriented syllabus should be introduced. 2. Extra guidance for the weak students in academic activities	1. Conducted skill training certificate program for all the students in the year 2018-19. 2. Remedial classes conducted.

Criterion 1

Feedback System QnM 1.4.1

Alumni 1. Financial support required for participation in National conferences.	1. Institute already giving financial support for students' participation in national conferences.
Employer 1. Technical skills should be provided to students. 2. Implement latest technology in syllabus.	1. Started more skill training certificate programs for all the students. 2. Latest technology and trends in industry implemented by conducting skill training certificate program and beyond syllabus.
